AND ACCOUNTING NETWORK**

HLB AUDIT & ASSURANCE SERVICES

Quality is at the heart of HLB – it is embedded in everything we do. So, when it comes to choosing a professional for your audit work, you can be confident in your HLB auditor. With audit quality being fundamental to maintaining trust in the financial reporting process, HLB’s International Audit & Assurance professionals ensure that your audits are carried out in accordance with International Standards on Auditing (ISA) and respecting the International Standard on Quality Control (ISQC1).

One way we demonstrate our commitment to not only maintaining but constantly improving quality is through our membership of the Forum of Firms. As a network, we take our membership of the Forum of Firms seriously and have been proud to represent and give a voice to the mid-tier market on an international scale.

Our team of global audit and assurance professionals provide services to a wide range of clients across all industries and sectors. Some of the key areas we focus on, in addition to providing statutory audits, are agreed upon procedures, transitioning clients from local standards to IFRS, audits of control environments, GDPR audits and cybersecurity assessments.

THE INTERNATIONAL ASSURANCE COMMITTEE

With Assurance being a pillar of the HLB strategy, it is only natural that the work of our International Assurance Committee (IAC) is an integral part of this. In addition to organising our annual audit conference and regional training events, quality assurance is at the heart of the IAC’s role. Its members, along with our project management team and a group of highly trained internal peer reviewers, guarantee that the quality of HLB firms is regularly monitored.

TOGETHER WE MAKE IT HAPPEN

Our experienced Committee members have developed a unique process of blending the quality control assessment with root cause analysis and subsequent learning, thus ensuring that best practice is adopted by all our member firms worldwide. Most regions or countries have their own assurance committees and audit working groups which act as regional champions and pass on the HLB message throughout the network.

The role of the auditor will transform significantly in the coming years and we are ready to embrace this change. The International Assurance Committee collaborates with our Global Technology Leader, HLB firms, and affinity partners in the technology space to identify and implement new technologies and ensure we stay at the forefront of a rapidly changing industry.

All these elements come together to enable our audit professionals to bring an added value to every audit engagement.
